SUMMARY

Google-certified data analyst who builds full-stack web apps with AI tools (ChatGPT, Claude), owning the requirements, testing and deployment. Analyzes data with SQL, R and Tableau. Brings 5+ years of customer-facing experience translating complex technology into clear decisions, including a #1 district sales ranking. Bilingual in English and Spanish, with a creative background in theatre, film and photography.

TECHNICAL SKILLS

AI-Assisted Development	ChatGPT, Claude, writing requirements, testing & QA, Django, Stripe API, Git/GitHub, VS Code, HTML/CSS
Data & Visualization	SQL (PostgreSQL, Oracle), R, Python (foundations), Tableau, Microsoft Excel, Elasticsearch, Logstash, Kibana
Cloud & Deployment	Render, PostgreSQL hosting, environment-based configuration (.env)
Creative	Photography, videography, Adobe Premiere Pro, Final Cut Pro
Other	Java (basics), technical communication, 100+ WPM typing, English/Spanish

PROJECTS

The Sweet Beaver — E-commerce Web App

Django · PostgreSQL · Stripe · Render

Built with ChatGPT · My role: product owner, requirements, testing and deployment

- Directed ChatGPT to build a full-stack online bakery shop with product catalog, cart, checkout, order tracking and English/Spanish translation.
- Specified Stripe card and wallet payments alongside manual payment methods, each switchable on or off.
- Designed an order workflow where manual payments stay “Awaiting Payment” until verified, so orders are never marked paid on a customer’s word alone.
- Defined a pickup-slot scheduling flow that reveals the pickup address only at the right checkout step.
- Deployed on Render with persistent media storage, secrets in environment variables, and an SEO sitemap and robots.txt.

Alimac Mysteries — Online Auction & Shop Platform *(in progress)*

Django · PostgreSQL · Stripe

Built with Claude · My role: product owner, requirements, testing and deployment

- Building an auction platform with proxy bidding, optional reserve prices, scheduled auction endings and email-verified accounts with saved payment cards.
- Designed a background process that closes auctions, enforces a 48-hour payment window and sends second-chance offers to the next-highest bidder.
- Supports local pickup and shipping to the US, Canada and Mexico with automatic sales tax; version-controlled on GitHub.

Personal Portfolio Website

HTML · CSS · JavaScript

Built with Claude

- Planned and art-directed a responsive portfolio with light/dark mode, a full-screen photo viewer and project case studies.

EXPERIENCE

Retail Sales Consultant — The Cellular Connection (Verizon Authorized Retailer), Suwanee, GA Feb 2023 – Present

- Ranked #1 among district sales representatives and consistently placed among the region's top 10 performers.
- Consistently achieved 100%+ of monthly performance targets through outbound calling and appointment setting.
- Train new hires through buddy selling, coaching them on needs-based solution selling and customer communication.
- Break down complex bills and plan math, and translate technical features into plain-language recommendations.

Freelance Photographer & Videographer — Self-employed (@stevfilmstudios) 2018 – Present

- Photograph headshots, graduations, quinceañeras, events, food, pets, cars and landscapes for private clients.
- Direct, shoot and edit video in Adobe Premiere Pro and Final Cut Pro, from planning through the final cut.
- Run each project end to end: understanding the client's vision, scheduling, shooting, editing and delivery.

Verizon Specialist — Best Buy, Duluth, GA Oct 2021 – Dec 2022

- Gathered and analyzed customer information to identify the best product and plan, giving customers clear insights for their decisions.
- Delivered product presentations and demos for phones, wearables and connected devices.

Sales Advisor — Best Buy, Duluth, GA Jun 2021 – Oct 2021

- Provided technical support and product guidance across consumer electronics; promoted to Verizon Specialist within 5 months.

Coordinator / Lead Host — Darden Restaurants, Buckhead, GA Feb 2019 – Mar 2020

- Coordinated guest flow and relayed special requests, allergies and preferences to the team in a high-volume restaurant.

Data Analyst (Part-time) — DDecker Painting, Canton, GA Dec 2018 – Feb 2019

- Built Tableau dashboards with bar, line and pie charts to visualize spending and earnings by region.
- Extracted and queried business data with SQL to support recommendations to ownership.
